33RD ANNUAL MINIATURE ART SHOW

NOVEMBER 15, 2023 - JANUARY 13, 2024

What is Miniature Art?

Closely inspect each work and see how every painting stands the closest inspection and you will appreciate the intricacy and exquisite detail of this art form.

The main principle ruling miniature art is that in miniaturizing the subject, the artist maintains the balance and proportion of the subject. Therefore, the painting must not only stand up to close inspection, but also be attractive when viewed from reasonable distance.

The rules of miniature art vary from place to place, but this show is judged on the following rules:

- Each piece must be original in its entirety;
- No piece may be bigger than 5" x 7" in total size;
- The scale of the subject must be no larger than 1/6 of the original;
- The framing and matting should be proportional and complimentary to the work.
